

# **Wastewater System Master Plan**

## **Notice of Public Information Centre (PIC)**

### **Background**

The City of Orillia is completing a Wastewater System Master Plan with the objectives of developing a comprehensive, long-term sanitary servicing strategy for existing and future land use within the city limits of Orillia. The Master Plan involves an assessment of the existing servicing infrastructure to identify necessary upgrades and future servicing priorities.

### **Process**

This study is being conducted in accordance with the Master Plan process as identified in the Municipal Class Environmental Assessment (Class EA) document (amended 2015). It will follow Approach #2 with the intent to fulfill the Class EA requirements for the Schedule A, A+ and select Schedule B projects identified within the Master Plan as well as to provide the basis for future Schedule C projects.

### **Public Information Centre**

In light of COVID-19 requirements for physical distancing and respecting concerns relating to the spread of COVID-19, the PIC will be conducted digitally. Display boards will be made available to the public on the City's website, [www.orillia.ca/wastewatermasterplan](http://www.orillia.ca/wastewatermasterplan), starting on Oct. 26, 2020. The PIC will outline the scope of work and overall study process; provide the results of condition and capacity assessments, and illustrate the findings of forecasted flow rates and potential servicing populations. Also included are the alternative solutions and preliminary evaluations and preliminary preferred alternative solutions to address the current and future needs of the wastewater system. The PIC is a mechanism for local residents, interested members of the public, and other stakeholders to review and comment on the alternatives, the evaluation process, the preliminary preferred alternative solutions, and next steps in the study process.

### **Comments**

Public engagement and input are key components of this study and will assist in ensuring that anyone with an interest in the study has the opportunity to provide input as the study proceeds. Comments can be submitted using the online comment form, available on City's website, or by email, by Nov. 25, 2020. To obtain information or to provide input, please contact either of the following members of the study team:
