What is Pingstreet?

Pingstreet is a free mobile app for mobile devices and provides Orillia residents/visitors with real-time access to helpful information using engaging tools. The app is GPS based so it knows where you are currently located and relays requested information accordingly. By leveraging existing data the process of making information available to mobile users is streamlined, time-efficient, and cost-effective.

What are its features?

The following tiles are currently featured on the City's mobile app:

NEW! Transit: real-time GPS-based information for all Orillia Transit routes including: bus arrival times; bus route information; current bus locations on the route map; and the option to save frequently used stops as a favourite for quick and easy access.

Curbside Collection: displays visually on a calendar when your garbage, recycling, green bin and yard waste curbside pick-up will occur. It even accounts for delayed collection during weeks with statutory holidays. The optional "remind me" feature will ensure you never miss another garbage day!

What's Happening: a chronological listing of upcoming events and meetings as submitted to the City of Orillia's online calendar. A "remind me" feature is also available.

Trails: Displays visually on a map where the Orillia and connecting leisure trails are located. By accessing your current location and using "follow me" technology, you can see where you are located on the trail at any time.

Contact Us: Get in touch with the City using corporate contact information and links.

Twitter: Keep up to the minute with City tweets. No Twitter account is required.

Facebook: See what's happening on the City's Facebook page. No Facebook account is required.

Where can I download the app?

Orillia's Pingstreet app is currently available for download in all major app stores:
