

# My family

My family is fun, kind and so divine.  
My brothers are good at hockey and so am I,  
my parents are good at everything  
and my sister is just so fine.

Everyone is growing up in a flash,  
make every day special while it lasts  
A family of six, not much attention,  
sometimes fighting ends with a crash

But I love them all, they are so nice  
Time and family is valuable in my life  
There's nothing more important  
It keeps my days full of spice

I need them now more than ever,  
together we are so much better  
I do so love them all the time  
With my family, there is nothing better
